This report meets an EERA requirement to keep local Communication Centers informed of our equipment staged within their zone of influence. Equipment status and location change constantly. We therefore advise that you to call us to confirm location and availability of our equipment for meeting your incident needs.

We have valid EERAs with the U.S. Forest Service in several regions and current agreements with several State and Local Wildland Fire Agencies. We are willing to discuss pre-positioning our equipment to meet your needs. Call us (24/7) at **800 255-3119** for further information or to place an order.
